

TUCUMCARI PARENTS
FORM ASSOCIATION

Helper Wrecks Southwest-
ern Engine in the Tu-
cumcari Yards.

Tucumcari, N. M., Nov. 29.—A Parents and Patrons' association has been formed in Tucumcari to assist the school officials and teachers toward securing better work and attendance from the pupils, and to otherwise make the schools a success. The following officers have been elected for this term: President, Mrs. W. E. Wheeler; vice president, Mrs. L. E. Sherwood; secretary-treasurer, Mrs. R. P. Donohoo.

An engine from one of the South-western's passenger trains was sent to the turn table at the roundhouse by one of the yard employees and wrecked, the table not being turned to receive it. The engine was lifted out a few minutes later by the wrecking crane, and repairs begun.

House, N. M., in this county, has a new weekly newspaper under the editorship of Henry Norris, who came here from Oklahoma a few years ago. He was formerly editor of the Plains News.

W. Merritt and party of three have arrived from Minneapolis, and have gone to the Caprock mines south of town. It is the intention to locate the new store house and machinery for the immediate working of the mines.

The last meeting of the Bay View club was held at the residence of Mrs. W. B. Jarrell on east Smith street. A good attendance was present. Mrs. A. Foreberg was the guest of the day. China is still the topic under discussion.

J. A. Street, former mayor of this city and now here as a business man since the early days of the town, has been appointed a member of the territorial mounted police.

The local chapter of the W. C. T. U. has issued a called meeting for this week at the home of Mrs. Major on south Second street. Matters of importance will be discussed.

Mrs. C. J. Terry, of south Second street, who has been in the hospital at El Paso undergoing an operation for appendicitis, is reported to be doing well since her return.

C. H. de Yampert and family have moved into town from the farm and will locate on the corner of Fifth and Second streets as soon as their new house is ready for occupancy.

MAIL EARLY AND
OFTEN HEREAFTER

Arrangements Being Made
For Five Deliveries in
Business Districts.

Under the new arrangement by which five mail deliveries will shortly be made from the El Paso postoffice in the business districts, it is probable that the first delivery will be made before 8 o'clock in the morning, instead of 9:30 as at present. Thus every business man may have his mail as soon as he arrives at the office, all night mail and early morning mail.

Postoffice authorities have called on the business men to state when they will prefer to have this extra delivery made, and it is probable that all will agree that the early morning delivery is preferable.

Argument is made in favor of the earlier delivery instead of the box delivery because when a carrier gets a letter about which there is any doubt as to the addressee, he can inquire of the person to whom he believes it to be addressed, whether it is his or not. When letters are placed in a box they may be placed in the wrong one and through mistakes in initials or spelling and the right address will not receive them for several days.

The five deliveries to take the place of the four have been decided upon as two new carriers have been allowed and will go to work Dec. 1. It is probable that within a week or so the fifth delivery will be in operation.

In the El Paso postoffice there are 1200 letter boxes. This is a greater number than the Chicago postoffice has and an effort is being made to discourage their use and encourage the people to take advantage of the five deliveries to be made as soon as possible by carriers.

This section of East El Paso immediately adjoining Government Hill has been on the free delivery list for some time and will soon have the advantages of free delivery, the postoffice authorities being at present engaged in this routing the city so as to arrange this. Eventually, a substitution will have to be established in East El Paso and three or four carriers will be stationed there and will cover their routes from that station.

PROTECTION FOR
THE HOMESTEADER

Arizona Will Not Make the
Owner of School Land
Pay For His Own
Work.

Phoenix, Ariz., Nov. 29.—Because of extreme agitation by the people, and for no other reason, it is believed, the constitution convention has placed no restriction whatever upon the sale of public lands belonging to the state. Also the constitution has provided safeguards for that large class of agriculturists throughout Arizona who have been living upon and improving school lands under lease for many years. These two factors, and the initiative and referendum and

Why Some Women
Have Beautiful Hair

(From London Saturday Review)
"The popular method of caring for the hair is wrong," says Prof. H. L. Snively. "Make your own investigations and see for yourself. Take the woman addicted to frequent shampooing with scented soaps and the use of so-called hair tonics and compare her with the woman who depends upon sane and sensible dry shampooing. Only too often you find the soap-and-water woman's hair thin, scanty, brittle and dull in color."

"Now note the results of dry shampooing. You find the hair long, abundant and glossy. It is fine in texture and rich in color. It is light, bright and fluffy, while the scalp is clean and healthy. You find no dandruff or soap scales on that head."

"Any woman to properly care for her hair should use a dry shampoo. Mix 4 ounces of powdered orris root with 4 ounces of theriacal Sprinkle a tablespoonful of this mixture upon the head; then brush the powder well through the hair. The theriacal orris root mixture is much better than orris root alone—and theriacal is not dependent upon to grow hair if anything will."

Don't Suffer
With Piles

Send for Free Trial and
Know How to Quickly
Cure Yourself.

There are thousands of men and women actually wearing pile trusses when all they need do is to step into any drug store and ask for a free package of Pyramid Pile Cure.

And all pain will then cease, the protrusions will disappear, and the cure will be quick and permanent.

Don't befooled good by assuming you must be operated on for a cure. And to test the merit of this really wonderful pile cure, send your name and address to the Pyramid Drug Co., 273 Broadway Bldg., Marshall, Mich., and they will send you by mail in plain wrapper, a convincing free trial package that will forever put you at ease as to what you need for piles.

You can then step into the nearest drug store, get the regular \$3.00 package, and the cure will be quick, complete and permanent. It acts like a charm.

Nine women in ten have piles and they often let the trouble grow until it is a racking torture.

But never mind how severe the case, Pyramid Pile Cure will at once take out the inflammation, reduce the swollen protrusions, stop bleeding, prevent that infernal itching and absolutely prevent the soreness that often makes an operation imperative.

Do not fail to get the free trial and always keep in mind that you can step into any drug store and get the \$3.00 package quickly, just when you need it most. Be sure and get what you ask for. The quick relief will astonish you—the cure is certain.

The recall, are considered as being of the greatest importance to the welfare of the new state.

The sale of public lands, however, is the more important of the two, for by thus placing no restrictions upon the people, these lands can be brought into cultivation just as soon as the people arrive to improve them.

It was said positively before the constitutional convention settled down to work out the land problem that a determined effort would be made to sew these lands up in perpetuity, and sure enough, the attempt materialized.

It did not succeed, however, although at one time for several hours it appeared as though a compromise upon no sale for 50 years would succeed. Brought face to face with a proposition to provide no restriction, however, the latter measure carried by just one vote.

The school land feature of the constitution secures to the settlers upon such land the value of their improvements, and goes much further and insures their residence upon the land in the future under the best conditions and with the certainty that the fruits of their labor in bringing the land up to a high state of agriculture from the desert sand they found, will not be taken from them.

School land in Arizona has been a hard proposition for many years. It is land leased to settlers or upon which settlers have filed in ignorance upon the part of the entryman and of the land office that it was school land. Some years ago it was suddenly discovered that great quantities of this land had been thus taken up and much of it highly improved. Some one then suggested that that school land entered be put up for sale. Obviously, however, this simply meant that the entryman, after having spent his time, money and labor upon the property, would now have to buy it from the state in open competition with others who had spent nothing and would be prepared to pay the present market price for the land, with all the improvements. In other words, the settler would be forced to the necessity of buying his own property. Despite the apparent, flagrant injustice of this plan, it was seriously urged by a large faction.

ACCIDENT EPIDEMIC
AROUND SANDERSON

Sanderston, Tex., Nov. 29.—What Hoover, a brakeman on the east end, and brother of assistant superintendent R. M. Hoover, was badly hurt by falling from his train. After falling he got up and grabbed the car, but his foot slipped and he was dragged across a bridge, badly bruising his legs. He then turned loose, and in rolling away from the train he broke his collarbone and tore ribs. A. Pierce, also a brakeman on the east end, had a miraculous escape from death in an accident east of here. At the point where the accident occurred the railroad track is built along the side of a mountain and great cliffs overlooking the track. Pierce was on the side of a box car as the train approached this place and was struck on the back and side by one of these cliffs. He was brought on here and given medical attention, the injuries sustained being to his back and side. A Mexican section hand was struck by a passenger train at Comstock, east of here and more or less injured. The man was attempting to get the handcar off the track when the accident occurred.

J. M. Kleth, a car repairer here, had the middle finger of his left hand mashed nearly off while putting on a coach.

Little Joe Wolfe had the end of the index finger of his left hand crushed off while rolling boulders down from the mountain just west of town.

Dorcas Hernandez sustained a stab wound about an inch deep and three inches long. Jose Garcia and Juan Hernandez being charged with the crime. Hernandez, the wounded man, is in no relation to the charged with the cutting, and is a stranger here, being employed on the new school building.

Telefeno Martinez, another Mexican, also sustained a bad stab in one of his legs, but he refuses to divulge the name of the party who inflicted it.

TAFT TO PRESIDE
AT RED CROSS MEET

Washington, D. C., Nov. 29.—President Taft will preside at the annual meeting of the American Red Cross, in Washington, on Dec. 4.

The American Red Cross is one of the most influential philanthropic societies in the land. Its roster includes the names of some of the most noted men in the United States and its work has time and again proved it to be a large factor in furthering the country's hygienic conditions.

Its activities extend from the Atlantic to the Pacific and from Alaska to the canal zone. Wherever there is flood, famine or fire, its emissaries are present.

The convention will be opened at 9:30 a. m. with a meeting of the central committee, followed by an address and reports of the various state boards. At 1 p. m. luncheon will be served in the building, and after dinner a group

RETURNS FROM NORTHERN
WOODS WITH A MOOSE HEAD

John Forsford is back. The El Paso hunter, trapper and guide who has been spending two months in the Canadian woods has returned. John arrived Sunday evening with a moose head and a furd of stories about his adventures in the north woods. One was that he killed a white moose. The remainder are of the same original brand.

NEGROES OF DOUGLAS LOSE
IN SUIT AGAINST WHITES

Tombstone, Ariz., Nov. 29.—In the suit of the negro residents of Douglas against the school trustees of that city, Judge Doan decided here that the trustees had the right to segregate the negro children from the white schools.

The little girl and her big sister both like a pretty piece of jewelry, as a Christmas gift. Snyder Jewelry Co., 227 San Antonio, 103 Mesa.

It Is DURABLE

Because:---

It is constructed of selected hard crushed stone of varying sizes, producing a maximum of inherent stability, and a minimum of voidage with absolute uniformity throughout the entire surface.

It Is SANITARY

Because:---

It is absolutely non-absorptive and excludes all water and other filth by reason of the voidage being perfectly filled with a waterproof bitumen.

It Is NOISELESS

Because:---

Each particle of mineral aggregate is encased in a film of bitumen, and the particles being from one inch down in size, prevents the annoying resonance emanating from other forms of roads, being equally silent as a dirt or macadam road.

It Is DUSTLESS

Because:---

The application of the flush coat stone roughens the surface and holds the fine dust, which is one of the greatest annoyances from other classes of roads.

SCHOOL CHILDREN ARE KEEPING
HERALD CLERICAL FORCE ON JUMP

Every afternoon the boys and girls keep the clerical force of the Herald's circulation department busy taking care of the subscriptions, and from the number of new entries it is very apparent that the distribution of Christmas money will be a big one.

It is surprising to note how readily even the youngest of the children understand how to go about getting credit points and the accurate manner in which they have their blanks filled out speaks well for the thoroughness of the instruction which they daily receive at the hands of their teachers.

Among those who have so far secured the most credit points are Miss Aileen Woodard, Miss Ida Curry, Miss Pauline Goodma, Miss Helen Kraus, Miss Adeline Moretti, Miss Louella Bennett, Joe Kelly, Alfred Sandoval, Vestal

LIVESTOCK SHOW
RECORD BREAKER

Chicago, Ill., Nov. 29.—The eleventh annual International Livestock exposition, now being held at the Union stockyards, is the greatest in the history of the association.

The International Livestock exposition, from a comparatively small beginning, 11 years ago, has assumed such importance in the livestock world as to render its annual occurrence an absolute necessity, not only on account of its being the court of last resort to stockmen, but because it sets the stamp of approval upon those of our domesticated animals that are most in demand and establishes a standard among stock raisers to be lived up to in order to realize for the breeder, feeder and farmer the highest price for his produce.

JAPANESE ART SPECIMENS
GIVEN TO MISSION

Portales, N. M., Nov. 29.—The Missionary society of the Baptist church gave a Japanese tea Saturday afternoon at the home of Mr. and Mrs. Walter Brannon. A missionary in Japan had sent the society a large collection of beautiful Japanese pictures. They will be sold, the money to go to mission work in Japan.

Jim Turner, long a salesman of Blankenship & Woodcock Mercantile company, and later of the firm of Joyce-Fruit company, is to engage in country merchandising on his own account. He bought out Joe Bradley, of Arch and will commence business soon.

J. D. Osborn, town marshal, has tendered his resignation to the town board of trustees.

HABERDASHER STOCK IS
DISPOSED OF BY CREDIT MEN

The Washington haberdasher store in the Fewel building on El Paso street has been closed out by the Credit Men's association. The stock has been disposed of and the creditors of the store have received 90 percent and will probably receive the full amount of their accounts. The foreclosure was handled out of the courts by Frank Smith, the secretary of the association.

SECOND TRADE EXCURSION
WEEK STARTS ON DEC. 5

Beginning Monday, December 5, the second trade excursion week will be started by the Retail Merchants' league. During next week downtown shoppers who buy their goods with the El Paso merchants who are members of the league.

MAR SEEKS PEACE,
MOVES TO JUAREZ

El Paso is to lose one of its best known characters and Chinatown's mayor, Mar Wing Kee, mayor ex-officio and protom of the yellow belt below Overland street, is planning to engage in business in Ciudad Juarez. Mar, it is said, had a little difficulty with a cousin of his who belonged to a high-binder tong, Mar says. To escape any danger from the hatchet men little Mar has deserted his haunts on south Oregon street and will engage in the general grocery, fish and silk goods business across the river.

MONITOR—Notice is hereby given
that there have been seized in this
collection district, for violation of the
customs laws, the following described
articles, which will be sold in front
of the custom house, El Paso, Texas,
at 10 o'clock a. m., December 15, 1910.
Anyone claiming the same is required
to appear within the time prescribed
by law.

Alfred L. Sharpe, Col. of Customs.

Majority of the Paved Streets of El Paso Are Paved With

The Bitulithic
Pavement

The One Pavement That Is Durable,
Sanitary, Noiseless, Dustless,
Mudless and Resilient

The Bitulithic
Pavement

Is now in use in upwards of two hundred fifty cities in the United States and Canada, covering over 1000 miles of thirty-foot roadways. This development has been accomplished in 10 years, beginning in 1901, in the face of organized opposition of both the "brick" and "asphalt" trusts, and can be due to but one cause--the absolute MERIT of the PAVEMENT itself.

It Is MUDLESS

Because:---

Experience has demonstrated that the Bitulithic pavement can be kept free from mud and filth as cheaply as any other form of road, being non-slippery. The Bitulithic pavement carries more crown than any other form of road, and for this reason can be cleaned with less labor than any other pavement.

It Is RESILIENT

Because:---

The pavement having inherent stability permits the use of a soft bitumen, and with a slightly roughened surface, horses travel with perfect confidence. The great injury to livestock by some other form of roads cannot now be measured, but in the days of the horse cars, when non-resilient pavements were used in the tracks of horse cars the average service life of street car horses was about five months. This rule applied to travel over non-resilient pavements, measured in dollars, becomes appalling. All persons interested in the humane welfare of "man's best friend," i. e., the horse, will surely favor the resilient pavement that offers a pathway nearest the natural earth that can be constructed, and still stand heavy travel.
